M1 Garand – We got a suggestion from James Sarco, one of our members, to put a poem in the newsletter. As the space is limited in the letter we are planning to open a member edited content page on our web site. On this note here is some more about the legendary M1 Garand: “John Garand's rifle was the single most significant small arms development in the history of modern warfare. No other rifle in this nation's history so outclassed that of its adversaries. The accuracy, reliability, ruggedness and most of all, its firepower, could not be matched by any of the Axis powers during WWII. It performed with distinction throughout WWII to Korea and to the early days in Vietnam.”

The Civilian Marksmanship Program has an ongoing sale of the M1; from rack grade to collector grade. More info at <http://www.odcmp.com/Services/Rifles/m1garand.htm>.
